

ECHO Autism: Individualized Care in Medical Settings

Join physicians and medical professionals for an interactive learning series focused on caring for autistic patients.

An opportunity to understand more about

- Characteristics of autism
- Identifying symptoms of ADHD and anxiety in autistic patients
- Environmental modifications that support autistic patients
- Family-centered care, and more!

Learn from one another

- Participate in discussions
- Share an example or scenario
- Give and receive tips on patient care
- Build a learning community

Everyone is welcome, content is especially designed for

- Physicians
- Nurses
- Medical Professionals
- Behavioral Health Providers
- Case Managers
