

The background of the slide is a collage of images related to a collaborative workspace. It includes hands drawing on a whiteboard, a large yellow lightbulb with three lightning bolts inside, a magnifying glass, a coffee cup, a notepad, gears, puzzle pieces, and various colored circles and rectangles. The word "INSPIRE" is written in the top left, and "DESIGN" and "RESEARCH" are written in the bottom left. Dashed arrows indicate a flow from the lightbulb towards the right.

Workgroup 1 Priorities

1. Build trust in Regional Center systems and other systems, particularly for people of color.
2. Ensure that every individual who meets service eligibility chooses and receives individualized services, including those not currently in the system – regardless of age, language access, race, ethnicity, or location.
3. Ensure individuals have choice and control over their lives by making self-determination the core of the developmental disabilities system.
4. Ensure equity of access and options in Regional Center services while still assuring a person-centered system to support consistency in the experience of families and individuals.

Priority 2 Language

Original Language: Ensure that every individual who meets service eligibility chooses and receives individualized services, including those not currently in the system – regardless of age, language access, race, ethnicity, or location.

Revised Language: Make sure that anyone who is eligible for services learns about the services and receives those individualized services timely – no matter who they are or where they live.

Which language do you prefer? What suggestions do you have?

Use our Equity Tool for Priority #2

Priority #2: Ensure that every individual who meets service eligibility chooses and receives individualized services, including those not currently in the system – regardless of age, language access, race, ethnicity, or location.

Problem statement → Where are we now? What do individuals and communities currently experience?

Causes of Problem → What is causing these problems people experience?

Information → What data or information will help answer these questions?

Recommendations → What are possible solutions to this problem that help us achieve Priority #2?
