Dr. Debra Cherry, a Committee Member and a Member of the National Alzheimer's Advisory Council, who serves as the Executive Vice President at Alzheimer's Greater Los Angeles, provided the Committee with an overview of the role and function of the National Alzheimer's Advisory Council. The Council was established by the National Alzheimer's Project Act. The law calls for a National Plan for Alzheimer's Disease and Related Disorders with input from a public-private Advisory Council on Alzheimer's Research, Care and Services. The Advisory Council makes recommendations to the U.S. Department of Health and Human Services for priority actions to expand, coordinate, and condense programs in order to improve the health outcomes of people with Alzheimer's Disease and Related Disorders and reduce the financial burden of these conditions on those with the diseases, their families, and society.
