MPA and Data Dashboard for Aging

Released January 6, 2021

Data Dashboard for Aging

California's over-60 population is projected to diversify and to grow faster than other age groups. Recognizing this, Governor Gavin Newsom issued an executive order calling for the creation of a Master Plan for Aging. The Master Plan is a 10-year blueprint for state government, local government, the private sector, and philanthropy to prepare the state for the coming demographic changes and continue California's leadership in aging, disability, and equity.
