#	Strategy	Туре	Potential Impact	Other Considerations
			-	
	<ul> <li>In terms of the recommendation to look at ISTs sooner than the 60 days included in the re- evaluation statute, not only look to see whether the IST is a candidate for community treatment or diversion, but whether they have otherwise been restored or should be a priority candidate for state hospital treatment.</li> </ul>			
	<ul> <li>When an IST is at DSH for treatment and may have to go back to jail for a court appearance, give priority to return that IST to their state hospital bed so they don't re-enter the backlog.</li> </ul>
