- [2021 Legislative Wins](#)

Master Plan for Aging: Dementia in Focus

- 62.** Continue California's leadership commitment to target clinical research into Alzheimer's on gender and racial disparities.
- 63.** Develop plan for an equity-focused dementia-prevention public health campaign, to meet needs as funds available.
- 64.** Promote screening, diagnosis, and care planning by health care providers for patients and families with Alzheimer's and related dementias, through hub and spoke training model of health care providers; direct caregiver training opportunities; and consideration of how dementia standards of care could be further incorporated in Medi-Cal and Medicare managed care.
- 65.** Seek stakeholder feedback on models of care coordination for IHSS participants with dementia or cognitive impairment.
- 66.** Assess options to increase Adult Day Services, especially for people with dementia.
- 67.** Strategically plan and lead the growing number of California's pioneering Alzheimer's and all dementia initiatives with renewed leadership and partnership for the CHHS Alzheimer's Advisory Committee beginning 2021.
- 98.** Build out No Wrong Door/"One Door" statewide for public information and assistance on aging, disability, and dementia, via upgraded web portal, statewide network of local ADRCs with shared training, tools, and technology, and continually improving cultural competency and language access.
- 99.** Create a Governor's Office Leadership Position on Aging, Disability, and Alzheimer's.
- 106.** Continually improve Data Dashboard for Aging, to advance equity – specifically, expand data collection and quality by age, race, ethnicity, language, citizenship status, sex, gender identity, sexual orientation, family status, disability, dementia/cognitive status, income.
- 109.** Develop options to include family caregivers in home and community assessments.
- 110.** Consistent with CalAIM, expand respite care for family caregivers.
- 112.** Consider expanding online training platforms for direct care workers – including opportunities for dementia training for IHSS family caregivers seeking a career ladder and more - to meet need as funding available.
- 115.** Expand telehealth access to multiple Medi-Cal delivery systems, incorporating lessons from COVID-19 and including virtual communication, remote patient monitoring, provider education, beneficiary education, family caregivers, and language access considerations, within existing resources.

Relaunching the Webinar Wednesdays series (March- December 2022)

March 9 – CalAIM: Community Supports & Enhanced Care Management

April 6– Reimagining Nursing Homes: New State & Federal Opportunities

May 4– Age-Friendly Initiatives in Honor of Older Californians Month

June 8– Alzheimer’s and Dementia in Focus

DAPRE has LAUNCHED!

Objective:

Advance Policy, Research,
and Equity in alignment with the
Master Plan for Aging

Focus:

Apply an equity lens that elevates
older adults,
people with disabilities, and
caregivers across program, policy
and research efforts

Partners:

Convene CalHHS departments,
other state agencies, and
stakeholders to collaborate
and address issues
