Digital Identity Consumer Privacy Focus Group Meeting #1
Chat Log (2:30PM – 4:00PM PT, March 14, 2022)**

The following comments were made in the Zoom chat log by Consumer Privacy Focus Group Members and the public during the March 14th virtual meeting:

00:19:49 Anne Donnelly, she, hers, San Francisco AIDS Foundation: I'm having some instability on my network so I may have to turn my camera off

00:21:32 tien@eff.org: No issues as to recording! Didn't realize you were talking to me.

00:36:17 Lucy Johns: Have a question, don't see "hand raise," pl call on me thanks

00:36:59 tien@eff.org: Lucy, in Reactions, you can usually "raise hand"

00:37:31 Lucy Johns: Thanks! Done

01:01:19 Lucy Johns: As BAs - social service agencies

01:02:08 Lucy Johns: Business Associates, therefore subject to HIPAA

01:03:51 Lucy Johns: Is there experience with statewide HIOs with hacking? Is centralized "statewide index" more at risk than more centralized for hacking?

01:19:56 Lucy Johns: Thanks Mark! Really important, that OCR doesn't requires HIPAA-type privacy when payers or providers are sending PHI

01:38:13 Anne Donnelly, she, hers, San Francisco AIDS Foundation: I'm sorry I have to go to another call. Agree with and appreciate the issues that are being raised. Thank you.

01:41:18 Lucy Johns: No biometrics or genetic identifiers!

01:42:08 Lucy Johns: I appreciate that you've thought about what we have to talk about, Rim!

01:42:56 tien@eff.org: Thanks for running the discussion, Rim
