I. **Purpose**

The California Health and Human Services Data Exchange Framework (“Data Exchange Framework”) requires access to and exchange of usable Health and Social Services Information by health, social, and human service providers and organizations. The purpose of this policy is to define the Health and Social Services Information to which access is to be provided or that is to be exchanged by Participants.

II. **Policy**

1. **DATA TO BE EXCHANGED**

   a. Participants shall make available or exchange, at a minimum, data as defined in the subparagraphs below.

      i. Health Care Providers, including but not limited to physician practices, organizations, and medical groups, general acute care hospitals, critical access hospitals, long term acute care hospitals, acute psychiatric hospitals, rehabilitation hospitals, skilled nursing facilities, and clinical laboratories, shall provide access to or exchange, at a minimum:

         a. Until October 6, 2022, data elements in the United States Core Data for Interoperability (USCDI) Version 1 and held by the entity.

         b. After October 6, 2022, all Electronic Health Information (EHI) as defined under federal regulation in Section 171.102 of Title 45 of the Code of Federal Regulations and held by the entity.

      ii. County health facilities that are Participants shall provide access to or exchange, at a minimum, the same data required of Health Care Providers in Section II.A Paragraph 1a as permitted under Applicable Law.

      iii. Health Plans, including but not limited to health care service plans and disability insurers that provide hospital, medical, or surgical coverage that are regulated by the Department of Managed Health Care or the Department of Insurance, Medi-Cal managed care plans, shall provide access to or exchange, at a minimum, the data required to be shared under the Centers for Medicare and Medicaid Services Interoperability and Patient Access regulations for public programs as contained in United States Department of Health and Human Services final rule CMS-9115-F, 85 FR 25510.

      iv. Public health agencies that are Participants shall provide access to or exchange, at a minimum, the same data required of Health Care Providers in Section II.A Paragraph 1a as permitted by Applicable Law.
v. Intermediaries, including but not limited to health information exchange networks and health information organizations, that are Participants shall provide access to or exchange, at a minimum, all of the following that apply:

a. Data defined in Section II.A Paragraph 1a if providing exchange services to one or more Health Care Provider or county health facilities.

b. Data defined in Section II.A Paragraph 1c if providing exchange services to one or more Health Plan.

c. Data defined in Section II.A Paragraph 1d if providing exchange services to one or more public health agency.

b. Participants not listed in Paragraph 1, including but not limited to Social Services Organizations, shall provide access to or exchange Health and Social Services Information as defined broadly in the Data Exchange Framework Data Sharing Agreement. Data to be exchanged by other Participants, including Social Services Organization, may be the subject of a future revision to this policy.

2. DATA STANDARDS

a. Participants shall use standardized data element formats, terminologies, and code sets identified in the most recent published (in non-draft form) United States Core Data for Interoperability (USCDI).

b. For data elements not included in USCDI, Participants shall use standardized data element formats, terminologies, and code sets identified in applicable nationally recognized standards.

c. It is the intent of the Data Exchange Framework to align with and adopt nationally recognized standards where they are available. However, the Data Exchange Framework may specify the use of technology standards, implementation guides, or other specifications to fill gaps in nationally recognized standards or to align with the needs of the Data Exchange Framework. Participants shall use the standardized formats, terminologies, and code sets identified in the Technology Standards and Implementation Guides (to be completed) as of the effective date and other conditions specified within that policy document. When conflicts exist between nationally recognized standards and the Technology Standards and Implementation Guides, the Technology Standards and Implementation Guides shall prevail.

3. DATA FORMATS

a. Participants shall use nationally recognized data standard formats in the exchange of Health and Social Services Information, which may include one of:

i. HL7 Messaging Standard Version 2.5.1 or greater

ii. HL7 Clinical Document Architecture (CDA®) Release 2, HL7 Companion Guide to Consolidated Clinical Document Architecture (C-CDA®) 2.1 preferred if applicable

iii. HL7 Fast Health Interoperability Resources (FHIR®) Release 4.0.1, US Core Implementation Guide 4.0.0 STU4 or greater preferred
III. Definitions

1. Electronic Health Information: electronic protected health information as defined in 45 CFR 160.103 to the extent that it would be included in a designated record set as defined in 45 CFR 164.501, regardless of whether the group of records are used or maintained by or for a covered entity as defined in 45 CFR 160.103, but EHI shall not include: (1) psychotherapy notes as defined in 45 CFR 164.501; or (2) information compiled in reasonable anticipation of, or for use in, a civil, criminal, or administrative action or proceeding.

2. United States Core Data for Interoperability: a standardized set of health data classes and constituent data elements for nationwide, interoperable health information exchange published by the Office of the National Coordinator for Health Information Technology.

3. All other capitalized terms, if not defined herein, shall have the same meaning as set forth in the CalHHS Data Exchange Framework Data Sharing Agreement.
