Welcome and introductions
The Children and Youth Behavioral Health Initiative (CYBHI)
California’s Youth Need Support

The State of California recognizes the scale and urgency of mental, emotional and behavioral health issues among young people and has responded with historic investments. The U.S. Surgeon General has said we’re facing a youth mental health crisis.

Mental health issues are now the leading cause of hospitalization for children under 18 in California.¹

One in three California 7th and 9th graders, and nearly half of 11th graders experienced chronic sadness.³

The rate of suicide among Black youth in California doubled between 2014 and 2020.²

66% of LGBT youth reported feeling so sad or hopeless that they stopped doing some usual activities.⁴
Prevention and Early Intervention are Critical

The CYBHI aims to make the **strengthening of preventive measures and early intervention** a core pillar of its approach to systems transformation and to ensure a continuum of care.

- Of all lifetime cases of diagnosable mental illnesses, **half begin by age 14**, and **75% begin by age 24**.\(^5\)

- Early detection of mental health concerns leads to **improved academic achievement** and **reduced disruptions at school**.\(^6\)

- **50% of youth** in the juvenile justice system have mental health needs.\(^7\)

- Integrating **behavioral health care** with primary care leads to a significant reduction in children’s behavioral problems and anxiety.\(^8\)
Governor’s Master Plan for Kids Mental Health

Governor Newsom Announced Master Plan for Kids’ Mental Health August 18, 2022

• $4.7B so every Californian aged 0-25 has increased access to mental health and substance use supports
• Whole Child, “All of the Above” Approach
• Multi-year, fundamental overhaul to invest in and build needed system infrastructure
• CYBHI at the Core

Other investments and initiatives in California being implemented in coordination and collaboration:

• $4.1B on a community schools’ strategy to connect kids and families to essential services including health screenings, meals and more, as well as expanded learning opportunities
• $5B on a Medi-Cal CalAIM initiative to better integrate health and behavioral health services for low-income kids and improve child health outcomes, including prevention
• $1.4B to build the healthcare workforce that expands our capacity to meet the health needs of Californians, including children and families.
• State budget investments in school-based behavioral health workforce, such as school counselors
What is the CYBHI?

The Children and Youth Behavioral Health Initiative (CYBHI) is a historic, five-year, $4.4 billion initiative to reimagine and transform the way California supports children, youth and families.

The initiative focuses on:

- Promoting mental, emotional and behavioral health and well-being.
- Prevention and providing services to support children and youth well-being.
- Providing services, support and screening to ALL children and youth for emerging and existing needs connected to mental, emotional and behavioral health and substance use.
- Addressing inequities for groups disproportionately impacted by mental health challenges and that face the greatest systemic barriers to wellbeing.

Built on a foundation of equity and accessibility, the CYBHI is designed to meet young people and families where they are to create an ecosystem that can help them when, where and in the way they need it most.
Key Initiative-wide updates
CYBHI Initiative-Level Recent Progress Highlights

- **Advance equity**: Established Equity Working Group with 39 members; conducted first full group meeting August 17 (presentation materials); Most recent meeting October 19th

- **Center on children, youth, and families**: Completed 37+ focus groups and series of community engagement sessions across the state; Developing paper to synthesize feedback and insights from youth, families and communities

- **Health-Education Collaboration**: Ongoing collaboration of CalHHS, SBE, CDE on state level issues, including inter-related initiatives of CYBHI, community schools, ELOP and UPK, and issues such as HIPPA/FERPA; stakeholder engagement with health and education partners.

- **Reimagine the ecosystem**: Completed phase one research, including 100+ SME interviews, and developing final working paper on key functionalities of reimagined ecosystem, including connections to CYBHI and other key state initiatives

- **Improve awareness**: Published Back-to-School Mental Health Resources and September Suicide Prevention Month Resources for youth, parents, families, and educators

- **Embed accountability**: Released Request for Proposal for CYBHI Evaluation Consulting Services, with the submission deadline on September 30, 2022 and contract award announcement planned this fall

Source: California Health and Human Services Agency
Our Focus on Equity

- **Targeted universalism approach** that sets universal goals combined with distinct strategies to address the systemic issues and needs of groups disproportionately impacted.

- **Center and advance equity** to better support children, youth and families that face the greatest systemic barriers to wellness and are disproportionately impacted by behavioral health issues, including children and youth of color, LGBTQ+ youth, low-income families, and children and youth from underserved communities.

- **Extensive and meaningful community engagement** with children, youth and families across the state to guide the initiative from design to evaluation.

- **Equity Working Group**: Advising the initiative on an equity framework to ensure equity is embedded into the CYBHI’s process, design, planning, and implementation of the overall approach, as well as use of data to advance equity.

- **Outcome goals and evaluation**: Children, youth and families’ insights are helping define the initiative’s outcome goals and will be integral to its evaluation. Outcomes goals to address disparities and evaluation, including evaluation processes, that center equity.
## CYBHI outcome measures identified by CalHHS

<table>
<thead>
<tr>
<th>Population outcomes</th>
<th>System performance measures</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Increase in overall <strong>mental well-being</strong> for children and youth</td>
<td>8. Increase in <strong>knowledge of available BH supports and services</strong></td>
</tr>
<tr>
<td>2. Decrease in <strong>mental health challenges</strong></td>
<td>9. Increase in children and youth who received mental health and substance use services and supports</td>
</tr>
<tr>
<td>3. Decrease in rates of <strong>suicidal ideation</strong> for vulnerable populations</td>
<td>10. Increase in <strong>diversity of BH professionals</strong>, especially in underserved communities</td>
</tr>
<tr>
<td>4. Decrease in <strong>emergency room visits and hospitalizations</strong> for children and youth with mental health related conditions</td>
<td>11. Increase in <strong>preventive services and family supports</strong> for children ages 0-5</td>
</tr>
<tr>
<td>5. Decrease in rates of <strong>school absenteeism</strong></td>
<td>12. Increase in <strong>substance use prevention strategies</strong> specifically for younger children and adolescents</td>
</tr>
<tr>
<td>6. Decrease in <strong>stigmatizing attitudes</strong> toward behavioral health</td>
<td>13. Decrease in <strong>barriers to care</strong> for children and youth from underserved communities</td>
</tr>
<tr>
<td>7. Improvement of <strong>experience with BH services and supports</strong> for children, youth, and families</td>
<td>14. Increase in <strong>cross-sector collaboration</strong> and adoption of continuous improvement approaches</td>
</tr>
<tr>
<td></td>
<td>15. Increase in utilization of the <strong>school-linked statewide fee schedule</strong></td>
</tr>
</tbody>
</table>

What do California’s Young People Want?

Some of things of things we’ve heard:

- **Feel supported daily** with deeper connections in their communities.
- **Easy access to affordable** mental health support when and where they need it.
- Support from **people who look like them**, who can understand and relate to their experiences and **speak their language**.
- **More resources, tools and services** to proactively support their mental health and well-being before being in crisis.

“When a therapist finally shared or understood my identities, it was so much less explanation. I could be very straight to the point…about what I’m talking about without fear or judgment.” – Youth participant in a recent focus group.
What do California’s Young People Want? (cont.)

- **Unconditional support from adults** who check in without an agenda, really listen, and act on what they hear.

- Educational tools that can **empower them to make their own informed decisions**.

- **Safe spaces** where they can **heal, find joy** and **be their authentic selves**.

- **Family support** that also addresses non-clinical issues, such as housing, basic needs and social support.

- **Access to extracurricular activities** like school clubs, community-building activities, green spaces, art, yoga, or music.
Incorporating Youth and Family Experience into CYBHI

Non-Clinical Services and Supports Identified as a Focus and Priority by Youth

- **Multiple types of non-clinical supports and services** are being studied to potentially include in a grants program to scale evidence-based and community-defined practices, with a focus on prevention and equity, as well as educational, informational and other pre-clinical supports through the virtual services platform.

- **Increased mindfulness, resilience, and wellbeing supports for students** through new near-term funding to schools.

- **Role of new Behavioral Health Coaches** includes a focus on non-clinical supports, including wellness promotion and education, and an emphasis on BH coaches with lived experience from diverse communities.

- **Exploring how Peer Supports** can be incorporated into the CYBHI with recent $10M budget investment on youth peer training, and possible use of peers on virtual services platform.

- **Emphasis on building a more diverse workforce** with feedback from youth that seeking to talk and work with people that understand their community, lived experience, look like them and speak their language.

- **Initial and ongoing engagement** with youth and parents disproportionately impacted by behavioral health challenges to shape a BH literacy and awareness campaign.

- **Supporting teachers so they can be the caring adult students are asking for:** Developing trauma-informed training for teachers and other school staff to recognize and understand how behaviors can stem from trauma, provide skills for creating safe learning environments, and understand how caring relationships with students can help buffer toxic stress. Supporting schools statewide to strengthen social emotional learning.

- **Providing Information, Resources and Tools for Parents:** Office of the Surgeon General is re-launching its Parent Stress Toolkit, will incorporate information for parents on supporting children’s wellbeing with specifics for disproportionately impacted groups in Toxic Stress and ACES Aware campaign. Investments in parent supports and new parent video resources under development.

- **Exploring increasing access to parks and the outdoors** by sharing what CYBHI has heard from youth about the importance of this issue with state level efforts to increase equitable access to state and local parks.

Wellness & Mindfulness grants (1/2)

Implement SEL, Mindfulness and Wellness Programming in Schools:

Support schools, districts, and COEs with the adoption of evidence-based tools, resources, and programs that support equitable access to mental health and wellness for students, families and staff. We propose to prioritize this programming support to schools with high numbers of American Indians, refugees, and English Learners.
Wellness & Mindfulness grants (2/2)

1. Collect Data for Continuous Improvement
2. Increase Staff for Success and Sustainability
3. Certify and Recognize a Workforce of SEL Educators and Ambassadors
4. Launch and Sustain Specialized Communities of Practice (CoPs)
5. Synthesize Scientific Discoveries for Deep Educator Engagement and Application
6. Convene an SEL/Wellness Conference
7. Replicate and Adapt the “Schools as Centers of Wellness” Partnership Model
Behavioral Health (BH) Virtual Services and E-Consult Platform – Stakeholder engagement

</table>
| **Behavioral Health Virtual Services** | • 8 Think Tanks¹  
• ~250 stakeholders | • Parent Caregiver Workgroup² (Sept) – Gather input on how virtual services can better serve children ages 0 - 12  
• Program Evaluation Workgroup² (Sept) - Gather input on data and metrics to be collected through virtual services to improve program delivery and outcomes | • Youth Advisory Board Working Sessions (Sept-Oct) – testing prototypes  
• Focus groups³ (Sept-Oct) – Solicit feedback from focus populations | • Think Tank 8 (Oct) – Synthesize leading implementation approaches with feedback obtained through earlier working sessions and focus groups |

Source: DHCS leadership guidance, OSP meetings in June-September, stakeholder engagements
Some stakeholder engagement meetings served multiple workstreams and therefore total stakeholders engaged are not a sum of stakeholders across workstreams

¹ Think Tanks are a set of workshops with experts to co-design workstream outputs.
² Workgroups are set of workshops with experts and public representatives to review and refine workstream outputs.
³ Focus groups are small group interviews to gather inputs from participants.
Behavioral Health (BH) Virtual Services and E-Consult Platform – Timeline updates

AS OF 10/4/2022

Q4 2022

• DHCS to identify and procure leading vendor(s) for platform efforts
• Kickstart e-consult platform efforts to define potential version 1 launch

Q1 2023

• Platform development efforts

Q2 – Q3 2023

• Continued platform development
• Pilot - Beta testing with select school(s)

Q4 2023

• Prepare for full launch in Jan 2024

Source: Department of Health Care Services, OSP leadership meetings June-August, 2022
Statewide All-Payer Fee Schedule - Requirements

1. Develop and maintain a school-linked statewide fee schedule for outpatient mental health or substance use disorder provided to a student 25 years of age or younger at a school site.

2. Develop and maintain a school-linked statewide provider network of school site behavioral health counselors.

3. Require each commercial health plan AND the Medi-Cal managed care plans and Medi-Cal behavioral health delivery system, as applicable, to reimburse providers of medically necessary outpatient mental health or substance use disorder treatment provided at, or near, a school site to a student (age 25 or younger) who is an enrollee of the plan or delivery system.

Providers of medically necessary school-site services will be reimbursed, at a minimum, at the fee schedule rate regardless of network provider status (e.g., commercial plan coverage).

Services provided as part of the fee schedule shall not be subject to copayment, coinsurance, deductible, or any other form of cost sharing.

---

1. See Children and Youth Behavioral Health Initiative Act, § 5961.4 (a) (1) – (4);
Statewide All-Payer Fee Schedule - Workgroup

• On October 24th, DHCS/DMHC will launch a CYBHI Fee Schedule Workgroup
• The purpose of the workgroup will be to engage stakeholders and inform the development of guidance to address policy, operational and implementation considerations for the CYBHI Fee Schedule
• Workgroup members will include:
  • Education partners, including state leadership/associations and LEA representatives
  • Commercial health plans
  • Medi-Cal Managed Care Plans
  • County Behavioral Health Departments
  • Providers
  • Community Based Organizations
Department of Health Care Access and Information

Caryn Rizell (HCAI)
Broad Behavioral Health Workforce Capacity (HCAI)
As of October 20, 2022

Accomplishments since July 2022

- **Aug 2022:** Launched Social Work Education Capacity Expansion grant funding application
- **Aug – Oct 2022:** Awarded three cohorts of behavioral health loan repayments and scholarships
- **Sep 2022:** Awarded Health Professions Pathway Program grants
- **Sep 2022:** Launched Community-Based Organizations Behavioral Health Workforce grant funding application
- **Oct 2022:** Awarding Psychiatry Education Capacity Expansion grants

Ongoing and upcoming work

- **Dec 2022:** Launch first Substance Use Disorder grant funding application
- **Dec 2022:** Begin developing substance use disorder training for non-behavioral health professionals working with children and youth
- **Jan 2023:** Award fourth cohort of behavioral health loan repayments and scholarships
- **2023:** Begin social work stipends program
Behavioral Health Coach Workforce (HCAI)
As of October 20, 2022

Accomplishments since July 2022

- **Aug 2022**: Conducted final round of workgroup sessions to refine BH Coach model
- **Sep 2022**: Public release of BH Coach model (posted on HCAI.ca.gov)
- **Sep 2022**: Published first BH Coach newsletter

Ongoing and upcoming work

- Continuing engagement with youth/families for feedback on proposed titles
- Continuing work with potential development partners for BH Coach training programs
- Continuing discussions on ensuring sustainable funding for the BH Coach

Upcoming engagement opportunities

- **Oct 25**: First quarterly BH Coach informational webinar
- **Monthly**: BH Coach newsletter
- If you would like to be included in these engagements, please email CYBHI@hcai.ca.gov
## Stakeholder Feedback Implementation (HCAI)

### Stakeholder Engagement Summary

**BH Coaches:**
- 50+ interviews with state government partners, industry leaders, and existing BH programs nationwide
- Refined role design through three rounds of stakeholder workshop sessions
- Ongoing: Monthly BH Coach newsletters and quarterly BH Coach informational webinars

### Feedback Implementation Examples

**Broad BH Workforce:**
- Ongoing interviews and collaborative working sessions with SMEs in the Justice, Foster, and Unhoused systems and within the area of Substance Use Disorder

- Developed initial BH Coach model with the input of stakeholder workshops and interviews including healthcare workforce, training providers, education workforce, and parents/youth
- Designed BH Coach role to respond to youth and family feedback that there is a need for holistic wellness supports
- Refined BH Coach educational and on-site training requirements based on stakeholder input
- Refined BH Coach scope of services to address feedback from clinicians, educators, youth and families
- Official BH Coach role title is being chosen by youth and family feedback
- Feedback informs effective program design for a variety of workstreams such as Social Work, Substance Use Disorder, and Justice and System Involved Youth
HCAI Program Highlight: Health Professions Pathways Program

- **Purpose:** to recruit and support students from underrepresented regions and backgrounds to pursue health careers
  
  - HPPP awards help organizations build and expand:
    - Pipeline programs
    - Summer internships
    - Post undergraduate fellowships

- **Cycle 1 (awarded Sep 2022):** 20 awards, all with efforts to support behavioral health, totaling $40.8M

- **Cycle 2:** scheduled to open in Spring 2023
HCAI Program Highlight: Behavioral Health Loan Repayments and Scholarships

- **Purpose:** to increase the number of behavioral health professionals providing direct care in California’s health profession shortage areas
- **Program is open through end of October**

- **Cohort 1 (awarded Aug 2022):** 168 awards totaling $4.5M
- **Cohort 2 (awarded Sep 2022):** 115 awards totaling $3.25M
- **Cohort 3 (awarded Oct 2022):** 85 awards totaling $2.5M
- **Cohort 4 (to be awarded in Jan 2023)**
California Department of Public Health

Ana Bolaños (CDPH)
CDPH CYBHI Overview

Comprehensive Culturally and Linguistically appropriate Public Education and Change Campaigns co-designed for and by youth to raise behavioral health literacy for youth, caregivers, and their communities in California.

Five Priority Populations:

- Asian and Pacific Islander
- Black and African American
- Native American,
- Latinx,
- LGBTQIA+
- With special considerations made to transition-age youth, persons with disabilities, justice and foster care involved youth and those living in rural areas.
CDPH CYBHI Goals – Promote Awareness

- Create General Public Education and Change Campaign(s) that promotes awareness without stigma towards topics related to behavioral health (including mental health, substance use prevention and wellness) and guide individuals in need towards support services
CDPH CYBHI Goals – Stakeholder Engagement

- Partner with community-based organizations (CBOs) and youth to co-create culturally, linguistically, and age-appropriate specific campaigns aimed at reducing stigma and discrimination around topics around behavioral health, mental health, and wellness.
CDPH CYBHI Goals - Co-Design with Youth

- Partner with youth to co-design culturally, linguistically, and age-appropriate specific awareness campaign(s)
How we are going to meet our goals

Request for Proposal (RFP)
  • To produce and deliver a statewide education campaign

Request for Application (RFA)
  • To contract with CBOs to implement the campaigns through outreach and engagement
**Activities**

**Landscape Analysis**
Completed: Internal and External landscape analyses on BH best practices of successful public education campaigns co-designed with youth

**Pre-RFP Stakeholder Engagement**
Completed: Outreach to 39 Community Based Organizations (CBOs) 7 Listening Sessions and 5 Introductory Meetings

**Ongoing National Expert Consultation**
8 Brain Trust Members  
9 Meetings Since July 2022
CDPH CYBHI Stakeholder Engagement Summary

Julie Rooney
ACEs and Toxic Stress Awareness Campaign

Raise awareness of Adverse Childhood Experiences (ACEs) and toxic stress.

CYBHI Focus Area: Public Awareness

Managed by: Office of the California Surgeon General (OSG)

Goals:

• Increase awareness of ACEs and toxic stress, emphasizing that toxic stress is a treatable health condition and there are resources available for screening, treatment and prevention.

• Share practical strategies for how parents and caregivers can support children who are experiencing stress and adversity — by helping them cope in ways that can turn off their stress response systems.

• Primarily target economically disadvantaged, LGBTQ+ and rural communities, communities of color, immigrants, refugee and justice- and welfare-involved youth. Secondary targets include the health care community, educators, legislators and other decision-makers.

Timeline: Budget year 2022 – 2023 +

Activities (as of 10/4/2022):
• Collaborated with First 5 to ensure alignment across campaigns. (ongoing)
• Joined First 5 focus group message-testing efforts throughout March.

Milestones:
• Late October-early November 2022: Releasing competitive RFP
• January 2023: Solicitation awarded

Stakeholder Engagement:
• Form subject-matter expert workgroup to inform campaign development.
• Engage with partners and clinicians to build awareness of the upcoming ACEs campaign.

Funding: $24 million
Deep dive on Evidence Based and Community-Defined Practices (EBP/CDEP)

Autumn Boylan (DHCS)
EBP/CDEP Stakeholder Engagement To-Date

10
Think Tank and Workgroup sessions hosted between April and October

100+
EBPs and CDEPs generated through stakeholder input

~65
Empaneled Think Tank and Workgroup members

100+
Unique members of the public engaged

Key themes that emerged from stakeholder conversations include...

The importance of equity and the need to focus on reducing health disparities through the grant process

An emphasis on the upstream continuum of care including early childhood and prevention and promotion practices

The need for a balanced and holistic approach to grant development, ensuring the portfolio addresses the broad needs of children and youth
## Selection Process for Stakeholder-Suggested EBPs to be Refined into Themed Grant Rounds

<table>
<thead>
<tr>
<th>Collated</th>
<th>Categorized</th>
<th>Calculated</th>
<th>Coalesced</th>
<th>Covered</th>
</tr>
</thead>
<tbody>
<tr>
<td>![Collated symbol] (100+) Workgroup and Think Tank-generated EBPs for potential inclusion</td>
<td>![Categorized symbol] EBPs after which Workgroup and Think Tank prioritized key focus areas</td>
<td>![Calculated symbol] scores for each EBP in focus areas based on selection criteria developed by Workgroup and Think Tank</td>
<td>![Coalesced symbol] EBPs into five themed grant rounds following a holistic review of the portfolio</td>
<td>![Coverage symbol] Coverage by Medi-Cal and commercial insurance will inform the short list of final EBPs</td>
</tr>
</tbody>
</table>

### Notes:
- **Collated**
  - A list of 100+ Workgroup and Think Tank-generated EBPs for potential inclusion.
- **Categorized**
  - EBPs after which Workgroup and Think Tank prioritized key focus areas.
- **Calculated**
  - Scores for each EBP in focus areas based on selection criteria developed by Workgroup and Think Tank.
- **Coalesced**
  - EBPs into five themed grant rounds following a holistic review of the portfolio.
- **Coverage**
  - Coverage by Medi-Cal and commercial insurance will inform the short list of final EBPs.
Stakeholder-informed holistic criteria was used to review the portfolio to ensure the practices addressed the broad needs of children and youth.

A holistic portfolio of practices and programs includes the following elements:

- Serve a wide age range of children and youth, from 0 - 25
- Reflect practices and programs that address the diverse needs of communities across CA and aim to reduce BH disparities
- Make practices and programs accessible to caregivers, parents, youth, and children across various settings
- Include infrastructure and approach to equitably scale CDEPs for the populations of focus
- Incorporate practices and programs that drive near-term outcomes and those that drive systemwide change
- Include innovative practices and programs and those with a demonstrated success for populations of focus
- Include practices and programs that address the areas of greatest need and with the greatest variability in quality and outcomes
- Acknowledge finite, one-time nature of funding in selecting a limited number of practices for scaling

1. Elements of holistic review not presented in a particular order
Potential focuses of EBP/CDEP grant funding rounds and grant announcement timing

November 2022
- **Parent and caregiver support programs**
  To increase supports and improve parental and caregiver involvement

February 2023
- **Trauma-informed practices and programs**
  To increase access to services which address BH needs and the impact of adverse childhood events
- **Youth-driven programs**
  To increase peer-to-peer support with programs informed through youth voice

March-April 2023
- **Community-defined evidence practices**
  To increase access to culturally relevant and responsive prevention and early intervention services

April-May 2023
- **Early childhood wrap around services**
  To increase access to home visiting and consultation services that are responsive to community needs
- **Early intervention**
  To increase early identification and intervention services for children and youth with, or at high risk for BH conditions
Round 1: Parent and Caregiver Support and Training

Certain parenting behaviors can impact child development and behavioral health\(^1\)

- Of caregivers in CA report engaging in some type of parenting behavior that may contribute to adverse outcomes\(^2\)
- Of caregivers reported feeling confident in their ability to control important things during the pandemic\(^2\)

Parent training and support programs are associated with reduction in child hyperactivity, aggression, disruptive behavior, and improvements in positive parenting practices, caregiver-child relationship, and caregiver related stress\(^3,4\).

Given this rationale, the parent and caregiver support grant round is designed to\(^5\):

- Strengthen positive parenting practices
- Promote parent and caregiver wellbeing
- Improve emotional and behavioral challenges commonly experienced in childhood
- Promote parent and caregiver understanding of child development
- Improve caregiver involvement and relationships with children
- Increase support for individuals that may be experiencing heightened levels of caregiver related stress

1. California State University 2. Kids Data – Ineffective parenting reports 3. Parenting for Brain 4. The California Evidence-Based Clearing House 5. Input from DHCS OSP leadership, and Think Tank and Workgroup session discussions and follow-up activities
Round 1: Eligible Grant Recipients

Organizations eligible for grant funding include but are not limited to:

• Community-based organizations who provide services to children, youth, and/or families
• Community mental health or behavioral health provider clinics
• Primary care practices and hospitals
• County governments (County BH, public health) and local agencies (e.g., First 5 associations)
• Early learning and care organizations (including childcare and preschool)
• Regional centers (i.e., California centers which provide services to people with developmental disabilities)
• Schools, LEAs, institutions of higher education
• Tribal entities
• Faith-based organizations
• Family resource centers
### Round 1: Grant Tracks

<table>
<thead>
<tr>
<th>Description</th>
<th>Illustrative Example</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Training</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Track 1:</strong> This track is designed for <em>individuals</em> seeking access to manualized training and/or certification in a shortlisted EBP/CDEP (or related adaptation).</td>
<td>A school psychologist wants to become certified to provide Cognitive Behavioral Intervention for Trauma in Schools to their students</td>
</tr>
<tr>
<td><strong>Implementation</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Track 2a, Operational Expansion:</strong> This track is designed for <em>organizations</em> looking to:</td>
<td>A regional center wants to meet increased demand for parent training services by training more staff in Parent and Child Interaction Therapy for specialized populations (e.g., intellectual development disabilities)</td>
</tr>
<tr>
<td>• Expand provision of short-listed EBP/CDEP (or related adaptation) that they currently provide</td>
<td></td>
</tr>
<tr>

Round 1: Upcoming Application Milestones

- **Late October / Early November**: Applications open online
- **November**: DHCS hosting a public webinar/office hours to answer application questions
- **Late November / Early December**: Deadline to ask for RFA-related questions/clarifications
- **Mid-December**: Applications due
- **January / February**: DHCS to notify applicants about grant award status
Deep dive on Trauma-Informed Training for Educators

Janne Olsen-Morgan
Kristen Kainer
Julie Rooney
Trauma-Informed Training for Educators

Provide ongoing training to childcare providers, educators and school personnel on trauma-informed care.

CYBHI Focus Area: Workforce Training and Capacity

Managed by: Office of the California Surgeon General (OSG)

Goals:

• Enable early childcare providers, educators, and school personnel to:
  • Recognize & respond to Adverse Childhood Experiences & toxic stress.
  • Respond appropriately. Intervene early.
  • Create safe and supportive learning environments for everyone

Parameters: Funding: $1 million

• As of August 31 have spent $159,000

Timeline: Budget year 2022 - 2024

Parameters:

• Voluntary, online training
• Three 2-hr modules for adults serving: 0-5, 5-11, 12-18
• English & Spanish

Activities (as of 10/4/22):

• June 2022: Contract signed w/ WestED
• Aug 2022: First meeting of Expert Review Panel (ERP)
• September 2022: Finalized learning objectives

Forthcoming Milestones:

• November 2022: Second ERP meeting
• Fall-Winter 2022: Design and production begin
• Spring 2023: User testing & technical review
• Summer 2023: Training available!
• Summer 2023-Summer 2024: Evaluation
About the Modules

Three online modules of 2 hours each for:
• Early learning and care providers serving ages 0-5
• Educators and school personnel serving ages 5-11
• Educators and school personnel serving ages 12-18

Modules will:
• Be written in easy-to-understand language in both English and Spanish.
• Cover similar concepts with examples, strategies, and practices that vary according to development stage served (0-5, 5-11, and 12-18).
• Include strategies for supporting the well-being of adult care providers, educators and personnel.
• Be free for participants.
• Be self-paced and computer, smartphone, and tablet compatible.
About the Modules

Through participating in the online trauma-informed training module learners will be able to:

• describe foundational concepts related to trauma-informed practice, healing, and resilience;

• develop awareness of the brain’s response to stress, its impact on behavior, one’s ability to heal and integrate experiences, and the influence of lived experiences and protective factors on mental and physical health and well-being;

• describe the essential role of relationships in social, emotional, and mental well-being; and

• understand the importance of disrupting practices that cause harm and recognize developmentally appropriate and culturally responsive trauma-informed and healing-centered supports and strategies.
About the Modules

As of mid-October, these are our draft lessons

• **Introduction**

• **Lesson 1**: Understanding Your Role in Promoting Resilience and Healing

• **Lesson 2**: Understanding the Individual Experience of Stress and Trauma

• **Lesson 3**: Understanding the Conditions for Health and Well-Being: Relationships, Environments, and Community

• **Lesson 4**: Understanding the Role of Systems in Supporting Well-Being
PARTNERS

The CA-OSG is partnering with other California agencies and organizations as well as an Expert Review Panel to ensure that the training leverages and builds upon existing trainings and best practices in the field and is easily accessible to early learning and care providers, educators and school personnel.

Partners include:

- State agencies
- An expert review panel
- WestEd content developers and evaluators
- Curriculum testers and evaluation participants
