

**California Health & Human Services Agency
Center for Data Insights and Innovation
Data Exchange Framework Implementation Advisory Committee
Meeting 2 Chat Log (10:00AM – 1:00PM PT, November 3, 2022)**

The following comments were made in the Zoom chat log by Implementation Advisory Committee Members during the November 3rd meeting:

13:01:10 From DeeAnne McCallin (CPCA) To All Panelists:

Mario , Kevin or Emma - The link in the calendar invite for IAC members for my name did not work. I clicked on Lori Hack's and it allowed me in. Not sure if that will block Lori or her designee from joining (Lori may not be available to join today)

13:01:58 From Kevin McAvey To All Panelists:

That's odd. Defer to Emma/Alice.

13:02:13 From Kevin McAvey To All Panelists:

Thank you for raising, DeeAnne

13:02:48 From Alice H - Manatt Events To All Panelists:

Thanks for letting us know, DeeAnn! We'll look into it and resolve before the next session. Lori's link will still work today if she is available to join.

13:03:09 From DeeAnne McCallin (CPCA) To Alice H - Manatt Events(Privately):

thx

13:04:50 From Kevin McAvey To Everyone:

Lori is unavailable today, and sends her regrets. Mimi Hall is listening in on Mx's behalf.

13:22:49 From Felix Su To All Panelists:

FYI Lori Hack from CAHIE is unable to attend this morning.

13:25:29 From Kevin McAvey To Everyone:

P&P, Modifications to Policies and Procedures, can be found here:

https://www.chhs.ca.gov/wp-content/uploads/2022/07/3.-CHHS_DSA-Amendment-of-Policies-and-Procedures-PP_Final_v1_7.1.22.pdf

13:29:06 From DeeAnne McCallin (CPCA) To Everyone:

+1 to David's comments about ensuring that the currently named "Info Blocking P&P" aligns with federal Info Blocking rule today and in future for the allowance of Governance Entity to revise the P&P (and/all P&P) to be amended in future. I do need to read into the Framework again to submit an official comment (which I will send to CDII after today's meeting).

13:29:27 From Kevin McAvey To Everyone:

Thank you, DeeAnne.

13:38:39 From DeeAnne McCallin (CPCA) To Everyone:

@Courtney per David's suggestion about a 1 year warning mirroring federal implementation, what about new entities that sign the DSA beyond the first year/2024/2026? Say, a new provider practice.

13:52:04 From Kevin McAvey To Everyone:

This was a terrific discussion. The team has heard your comments, and will consider each of them as we re-approach the P&P.

14:01:03 From Kevin McAvey To Everyone:

To members of the public, thank you for joining us. To receive updates on the development of the Data Exchange Framework, email CDII@chhs.ca.gov.

14:04:23 From DeeAnne McCallin (CPCA) To Everyone:

Can we intentionally NOT request fax numbers? (seriously, this is an opportunity to put fax in healthcare to rest)

14:16:29 From Felix Su To All Panelists:

We've taken to thinking of the QHIO as a "health data safety net" -- hence equity as a principle

14:33:18 From Felix Su To Everyone:

We've taken to thinking of the QHIO as a "health data safety net" -- hence equity as a principle

14:34:24 From Cary Sanders To All Panelists:

I have to hop off now for another meeting, my apologies. Thank you!

14:39:07 From Andrew Kiefer To All Panelists:

have to switch to phone for travel to another meeting.

14:46:50 From Helen Pfister To All Panelists:

The DSA contains a force majeure provision that provides that a Participant (which would include a QHIO) is not responsible for delays or failures in performance caused by the occurrence of events or other circumstances that are beyond its reasonable control. That force majeure provision would apply in the event of an earthquake or other event that made it impossible for a QHIO to comply with its obligations.

14:50:55 From David Ford To Everyone:

I have to drop so I'm leaving my questions about the grant program here: This suggests the money should go to QHIOs or directly to providers. Do you see a 3rd avenue, where an organization could apply to work with a group of providers (like the regional extension centers used to do)? Experience has shown that small practices lack the time and resources to apply for funding opportunities such as this.

14:56:51 From Troy Kaji To All Panelists:

RE: Force majeure provision, would that potentially include ransomware or other cybersecurity attacks? @helen

15:09:13 From DeeAnne McCallin (CPCA) To Everyone:

TA is so broad. It's needed, still after a decade (or so) of TA, but is a constant

- 15:13:58 From DeeAnne McCallin (CPCA) To Everyone:
agree with Felix and Linnea
- 15:14:25 From Amie Miller To Everyone:
+1 to Linnea - It is critical that counties are included in this TA
- 15:25:22 From Felix Su To Everyone:
"Identity and Access Management" = I AM. Clever!
- 15:28:08 From Amie Miller To Everyone:
This is very exciting important work.
- 15:29:07 From DeeAnne McCallin (CPCA) To Everyone:
+1 to Rim's bullet item on slide 48 about starting with CalHHS Depts for State
Person Identity
- 15:32:19 From DeeAnne McCallin (CPCA) To Everyone:
yes, appropriate.
- 15:50:14 From Kevin McAvey To Everyone:
Thank you all for providing comments. Please keep verbal comments to two
minutes or less.
- 15:53:58 From Amie Miller To Everyone:
good work!
