**Subject:** Manifest MedEx comment submission on new draft P&Ps

Dear CDII colleagues,

Thank you for the important opportunity to provide public comments on the four new draft P&Ps and one modified P&P for the DSA. We appreciate all the thoughtful discussion and consideration that went into these drafts.

Please find attached the completed **DxF Comment Template** from **Manifest MedEx**. We have responded to CDII's list of questions for public input, as well as commented on specific text from the draft P&Ps.

Re: the worksheet for the "Technical Requirements for Exchange" P&P—we have heard CDII reiterate your interest in obtaining responses to the revised draft provision requiring hospitals to send ADTs to at least one QHIO. We have provided detailed comments to explain why this provision is essential, and we offer options and recommendations to address the practical/implementation questions raised by CDII.

We are grateful to be the State's stakeholder, advisor, and partner on the success of the DxF, and we have crafted our comments in the spirit of that partnership.

Please don't hesitate to reach out to [@Erica Galvez](mailto:@Erica.Galvez) and myself to discuss anything we have provided to date.

Best,

Felix Su  
Director, Health Policy
