

# LEGISLATIVE ACTION REPORT

2022-2023

Dear CalHHS Partners:

It is with gratitude that I share the second annual California Health and Human Services Agency (CalHHS) Legislative Action report, which will provide an overview of proposals that passed the Legislature and were presented to Governor Newsom during the 2022-23 legislative session.

We at CalHHS remain committed to advancing a vision of a Healthy California for All through our [guiding principles and strategic priorities](#), and together, have an opportunity to shape the future of our state and build a more inclusive California. As we navigate a world that recovers from an unprecedented global pandemic, each of our 12 departments and five offices are called to break down systemic barriers and fight for equity and access through their service delivery and program design. We remain steadfast in our efforts to deliver quality, data-driven, whole-person, and person-centered programs and services, with belonging and dignity to all.

The Governor considered 1,046 bills; where roughly one in five pertained to Californians' health and human services programs – a testament that health and human services are at the core of our communities. Elected leaders, legislative staff, and valued stakeholders worked closely to assess approximately 181 bills, of which, the Governor signed 114 into law.

The road to intentional collaboration and meaningful implementation relies on continued coordination and trust across all levels of government and with community leaders and families across California. We invite you to see how this legislative work aligns within the context of our [2024-25 Program Priorities](#), and I hope you'll join us in this call to deliver more and to help shape our state into a Healthy California for All.

Arms linked,

Mark Ghaly, M.D., MPH

Secretary, California Health & Human Services Agency
