Executive Summary

I. Alzheimer's disease and related dementia in California

- A. Introduction
- B. Prevalence
- C. Estimated number of people with Alzheimer's disease in select California counties: 2024, 2030, 2040, 2050
- D. Modifiable risk factors
- E. Alzheimer's disease and dementia among women
- F. Alzheimer's disease and dementia among California's ethnic and culturally diverse population
 - 1. *White/Caucasian Americans, Non-Latino/Latina/Latinx*
 - 2. *Latino/Latina/Latinx Americans*
 - 3. *Black/African American*
 - 4. *Asian American/Pacific Islander*
 - 5. *Lesbian, Gay, Bisexual, Transgender, and Queer or Questioning*
- G. Alzheimer's disease among people with Trisomy 21 (Down Syndrome)
- H. Lifetime risk of Alzheimer's disease and dementia
 - 1. *Lifetime risk of California's baby boomer population*
 - 2. *Lifetime risk among California's ethnic and culturally diverse population*
- I. Mortality
 - 1. *Alzheimer's disease mortality among California's ethnic and culturally diverse population*
 - 2. *Alzheimer's disease mortality in California counties*
 - 3. *COVID-19 on deaths from Alzheimer's disease*

II. Living arrangements for people living with Alzheimer's disease

- 1. *Changes to family structure*
- 2. *Homelessness*
- A. Community living arrangements
 - 1. *Home-based living*
 - 2. *Congregate community-based living*
- B. Nursing homes
- C. Other living arrangements
 - 1. *Veteran-centered living arrangements*
 - 2. *Prisons*

- DRAFT OUTLINE: ADRD Facts and Figures in California Report 7/29/2024
- NOTE: Text highlighted in yellow indicates a new proposed section/information, depending on the data available.
- Please send feedback to Jarmin Yeh: Jarmin.Yeh@ucsf.edu

III. Caregiving for people with Alzheimer’s disease and related dementias

- A. Who are caregivers?
- B. Unpaid caregivers
 - 1. *California caregivers*
 - 2. *Caregiving support services*
- C. Paid caregivers
- D. Long-distance caregivers
- E. Characteristics of care recipients
- F. Caregiving tasks
- G. Duration of caregiving
- H. Impacts of caregiving
- I. Emotional well-being
- J. Health
- K. Income and financial security
- L. **COVID-19 and dementia caregiving**

IV. Costs of caring for people with Alzheimer’s disease and related dementias

- A. The cost and provision of care for people with Alzheimer’s disease and related dementias in California
 - 1. *Unpaid and paid care costs*
 - 2. *Costs to the Medi-Cal program*
 - 3. *Trends in paid long-term care provision and costs*
 - a) Homemaker services
 - b) Home health aides, personal, and home aids
 - c) Community based adult services (CBAS)
 - d) Assisted living facilities
 - e) Skilled nursing facilities
 - 4. *Hospice/palliative care use or end of life care costs*
 - 5. **COVID-19 and health care utilization and costs**
- B. Cost to California businesses
 - 1. *Productivity losses to California businesses*

- DRAFT OUTLINE: ADRD Facts and Figures in California Report 7/29/2024
- NOTE: Text highlighted in yellow indicates a new proposed section/information, depending on the data available.
- Please send feedback to Jarmin Yeh: Jarmin.Yeh@ucsf.edu

V. Geriatric and dementia workforce and efforts to bolster care

- A. Screening and diagnosing workforce
- B. Medical treatment and care team workforce
- C. Collaborative workforce models for dementia care management
- D. Direct care workforce
- E. COVID-19 on the workforce
- F. Dementia-friendly initiatives and community-based workforce

VI. State ADRD Initiatives

- A. California Master Plan for Aging
- B. California Task Force on Alzheimer's Prevention and Preparedness
- C. California Department of Public Health
- D. California Department of Aging
- E. California Department of Health Care Services

VII. Conclusion

- DRAFT OUTLINE: ADRD Facts and Figures in California Report 7/29/2024
- NOTE: Text highlighted in yellow indicates a new proposed section/information, depending on the data available.
- Please send feedback to Jarmin Yeh: Jarmin.Yeh@ucsf.edu

Appendices

I. Appendix A – Overview of Alzheimer’s disease and related dementias

- A. Table A1: Common types of dementia and their typical characteristics

II. Appendix B – Methodological notes and data sources

III. Appendix C – State and county Alzheimer’s disease prevalence estimates

- A. Table C1: Estimated number and percent change in people age 55+ with Alzheimer’s disease: 2024, 2030, 2040, 2050 – California and counties
- B. Table C2: Estimated number and percent change in people age 55+ with Alzheimer’s disease by race/ethnicity: 2024, 2030, 2040, 2050 – California
- C. Table C3: Estimated number of people age 55+ with Alzheimer’s disease by race/ethnicity and by county: 2024
- D. Table C4: Estimated number of people age 55+ with Alzheimer’s disease by race/ethnicity and by county: 2030
- E. Table C5: Estimated number of people age 55+ with Alzheimer’s disease by race/ethnicity and by county: 2040
- F. Table C6: Estimated number of people age 55+ with Alzheimer’s disease by race/ethnicity and by county: 2050
- G. Table C7: Estimated number and percent change in people age 65+ with Alzheimer’s disease: 2024, 2030, 2040, 2050 – California and counties
- H. Table C8: Estimated number and percent change in people age 65+ with Alzheimer’s disease by race/ethnicity: 2024, 2030, 2040, 2050 – California
- I. Table C9: Estimated number of people age 65+ with Alzheimer’s disease by race/ethnicity and by county: 2024
- J. Table C10: Estimated number of people age 65+ with Alzheimer’s disease by race/ethnicity by county: 2030
- K. Table C11: Estimated number of people age 65+ with Alzheimer’s disease by race/ethnicity and by county: 2040
- L. Table C12: Estimated number of people age 65+ with Alzheimer’s disease by race/ethnicity and by county: 2050

- DRAFT OUTLINE: ADRD Facts and Figures in California Report 7/29/2024
- NOTE: Text highlighted in yellow indicates a new proposed section/information, depending on the data available.
- Please send feedback to Jarmin Yeh: Jarmin.Yeh@ucsf.edu

IV. Appendix D – State and county Alzheimer’s disease and dementia lifetime risk estimates

- A. Table D1: Lifetime risk for baby boomers born between 1946 through 1964 to develop dementia and Alzheimer’s disease by gender – California and counties

V. Appendix E – State and county Alzheimer’s disease mortality estimates

- A. Table E1: Alzheimer’s disease deaths in California by county of residence, 2015-2017
- B. Table E2: Alzheimer’s disease deaths in California: 2018 by race/ethnicity

VI. Appendix F – Alzheimer’s organizations

- A. Alzheimer’s Association, their chapters, and the regions they serve
- B. Independent community-based Alzheimer’s organizations

VII. Appendix G – Caregiver resource centers in California

- A. Other Alzheimer’s organizations and the regions they serve

VIII. Appendix H – State paid and unpaid Alzheimer’s disease cost of care projections

- A. Table H1: Projections of the cost of caring for community resident and institutionalized people with Alzheimer’s disease in California age 55+ (2019 U.S. Dollars): 2024, 2030, 2040, 2050
- B. Table H2: Projections of the cost of caring for community residents and institutionalized people with Alzheimer’s disease in California age 65+ (2019 U.S. Dollars): 2024, 2030, 2040, 2050

IX. Appendix I – California Alzheimer’s Disease Centers (CADC)

- A. What are the services provided by the CADCs?
- B. Who provides these services at the CADCs?
- C. Who is eligible for these services?
- D. Who pays for these services?
- E. Location of the CADCs

X. Appendix J – References

XI. Appendix K – List of California Area Agencies on Aging

- DRAFT OUTLINE: ADRD Facts and Figures in California Report 7/29/2024
- NOTE: Text highlighted in yellow indicates a new proposed section/information, depending on the data available.
- Please send feedback to Jarmin Yeh: Jarmin.Yeh@ucsf.edu

XII. Appendix L – 2017 California Guideline for Alzheimer’s Disease Management

List of Figures

- I. Figure 1: Percent increase in the population of California and in Californians age 55+ with dementia or Alzheimer’s disease: 2024, 2030, 2040, 2050**
- II. Figure 2: Estimated number of Californians age 55+ with dementia or Alzheimer’s disease: 2024, 2030, 2040, 2050**
- III. Figure 3: Age distribution of Californians with dementia: 2024, 2030, 2040, 2050**
- IV. Figure 4: Age distribution of Californians with Alzheimer’s disease: 2024, 2030, 2040, 2050**
- V. Figure 5: Estimated prevalence of Alzheimer’s disease among Californians age 55+ by sex: 2024, 2030, 2040, 2050**
- VI. Figure 6: Estimated prevalence of dementia among Californians age 55+ by sex: 2024, 2030, 2040, 2050**
- VII. Figure 7: Estimated prevalence of Alzheimer’s disease among Californians age 55+ by race/ethnicity: 2024, 2030, 2040, 2050**
- VIII. Figure 8: Estimated prevalence of dementia among Californians age 55+ by race/ethnicity: 2024, 2030, 2040, 2050**
- IX. Figure 9: Estimated prevalence of Alzheimer’s disease among Californian women age 55+ by race/ethnicity: 2024, 2030, 2040, 2050**
- X. Figure 10: Estimated prevalence of Alzheimer’s disease and dementia among lesbian, gay, or bisexual (LGB) Californians age 55+: 2024, 2030, 2040, 2050**

- DRAFT OUTLINE: ADRD Facts and Figures in California Report 7/29/2024
- NOTE: Text highlighted in yellow indicates a new proposed section/information, depending on the data available.
- Please send feedback to Jarmin Yeh: Jarmin.Yeh@ucsf.edu

- XI. **Figure 11: Estimated prevalence of Alzheimer’s disease and dementia among LGB Californians age 55+ by sexual orientation: 2024, 2030, 2040, 2050**
- XII. **Figure 12: Percentage change in age-adjusted rates for the leading causes of death in California: 2014 to 2018**
- XIII. **Figure 13: Percent change in Alzheimer’s disease crude death rates by race/ethnicity, 2000 to 2018**
- XIV. **Figure 14: Alzheimer’s disease crude death rates by race/ethnicity: 2000, 2009, 2018**
- XV. **Figure 15: Alzheimer’s disease death rates by race/ethnicity: 2000, 2009, 2018**
- XVI. **Figure 16: Average Alzheimer’s disease death rates for all California counties: 2015-2017**
- XVII. **Figure 17: Living arrangements of persons age 65 and over, United States, 2018**
- XVIII. **Figure 18: Estimated distribution of living arrangements for people with Alzheimer’s dementia in California: 2024, 2030, 2040, 2050**
- XIX. **Figure 19. Estimated and projected paid and unpaid community care costs for people with Alzheimer’s disease, age 55+: 2008, 2019, 2025, 2040 (costs in billions of dollars)**
- XX. **Figure 20: Estimated and projected paid and unpaid institutional care costs for people with Alzheimer’s disease, age 55+: 2008, 2019, 2025, 2040 (costs in billions of dollars)**
- XXI. **Figure 21: Total Medicaid payments for Americans age 65+ with Alzheimer’s disease and related dementias in California, Texas, and Florida: 2019 dollars**

- DRAFT OUTLINE: ADRD Facts and Figures in California Report 7/29/2024
- NOTE: Text highlighted in yellow indicates a new proposed section/information, depending on the data available.
